with intention.

01 Colour Palette

The Nautical palette pairs a deep, trustworthy navy with an oceanic blue, set on a clean off-white. Signal Orange is the single accent — used sparingly for calls to action, links, and moments of emphasis.

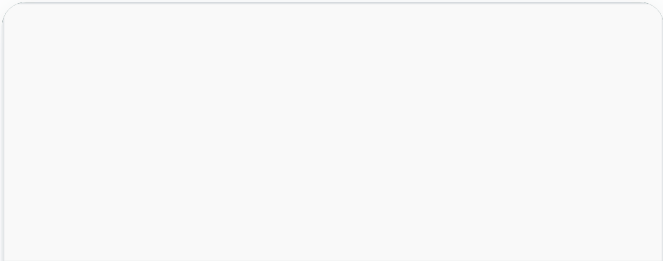

Deep Navy
#092634

Primary ink, headlines, logo ground, dark UI surfaces.

Oceanic Blue
#004E72

Secondary text, links, supporting fills.

Off-White
#F9F9F9

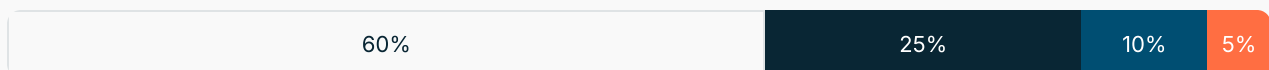

Page background, cards, negative space.

Signal Orange
#FF6E42

Accent only — CTAs, highlights, links. Never as a background wash.

OVERLINE LABEL

03 Logo & Monogram

CLEAR SPACE & SIZING

Maintain clear space equal to the height of one letter around the monogram. Minimum size 24px for digital, 8mm for print. Corner radius scales with the mark.

AVATAR VS MONOGRAM

Use the KC monogram as the scalable primary logo. A circular headshot may serve as a personal avatar for human touchpoints, but never replaces the monogram in small or single-colour use.

DO & DON'T

Do — keep the monogram on navy, cream, or white. Use orange lettering only on navy.

Don't — stretch, recolour outside the palette, add shadows, or place on busy photography.

04 In Application

KC

About

Card & link style

Cards sit on white with a hairline border. Links and inline emphasis use Signal Orange.
